New Major Discovery:

Edip Yuksel Discovers Solid Proof That "The Key" Must be in Arabic

In the last few issues of SP, we have witnessed the "Miracle of Miracles." The first sura in the Quran is mathematically composed in a manner that challenges and stumps the greatest mathematicians on earth. Now we appreciate the fact that when we recite Sura 1, "The Key," during our Contact Prayers, something happens in the universe, and we establish contact with our Creator. The result is perfect happiness, now and forever. By contacting our Almighty Creator 5 times a day, we nourish and develop our souls in preparation for the Big Day when we meet God. Only those who nourish their souls will be able to withstand and enjoy the physical presence of Almighty God.

All submitters, of all nationalities, recite the words of "The Key" which were

written by God Himself, and given to us to establish contact with Him (2:37).

Edip's discovery adds to the awesomeness of "The Key" and proclaims clearly that it must be recited in Arabic.

HERE IT IS

When you recite "The Key" in Arabic, your lips touch each other precisely 19 times.

FURTHERMORE

Your lips touch each other where the letters "B" and "M" occur. These are 4 "B's" and 15 "M's" and this adds up to 19. The gematrical value of the 4 "B's" is $4 \times 2 = 8$ and the gematrical value of the 15 "M's" is $15 \times 40 = 600$. The total gematrical value of the 4 "B's" and 15 "M's" is 608, that is 19×32 .

AWESOME MATHEMATICAL MIRACLE CONFIRMS THE FRIDAY PRAYER

1712[*][*]24[*][*][*][*][*]34[*][*][*][*]43[*][*][*]54[*][*][*][*]

This long number (6346 digits, or 19×244) consists of the total number of "Keys" (Faatihah) in the 5 prayers (17), followed by the number of the first prayer (1), followed by the number of units in the first prayer (2), followed by the number of "Keys" (Sura 1) that we recite in this prayer, followed by the number of the second prayer (2), and so on to the last prayer. This very long number is a multiple of 19. Please note that each [*] = 1711926040130305130...301050. [*] represents one "Key" consisting of the number of Sura 1, followed by the number of its verses (7), followed by the number of the first verse, followed by the number of letters in Verse 1, followed by the gematrical value of every individual letter in Verse 1, followed by the number of Verse 2, then the number of letters in Verse 2, then the value of every individual letter in Verse 2, and so on to the end of Sura 1. Please note that any representation of Sura 1 can replace the [*] without affecting the outcome; all of them give multiples of 19. For example, a short representation of "The Key" consists of the Sura number (1), followed by the number of verses (7), followed by the total number of letters in Sura 1 (139), followed by the total gematrical value of the whole sura (10143). The resulting number (1713910143) can also represent [*]. Since the Friday prayer consists of two sermons and two Rak'aas (total is still 4 units), we read only 15 "Keys" on Friday, compared with 17 on the other days. Abdullah Arik discovered that if we replace the 17 in the long number at the top of this article, we must remove two "Keys" from the noon prayer to get a multiple of 19. This confirms the Friday Prayer, at noon, with 2 "Keys." The long number shown below represents Friday's five prayers; it is a multiple of 19.

Soad Khalifa Rayan, Lisa Spray, Ihsan Ramadan, K. Emami, & Saeed Talari Discover New Proof that Rashad Khalifa is God's Messenger

Sequential (Conventional) Values

By writing the 28 letters of the Arabic alphabet, then assigning sequential numbers to them, from 1 to 28, we get the sequential or conventional value.

Soad Khalifa Rayan's Discovery

Soad calculated the sequential value of Noah **نوح**; it is $14 + 6 + 8 = 28$. If you look at Sura 71, entitled "Noah," you will note that the number of verses is 28.

She calculated the value of "Abraham **ابراهيم**": $1 + 2 + 20 + 1 + 5 + 10 + 13 = 52$, and 52 is the number of verses in Sura Abraham (No. 14).

She then calculated the sequential value of "Muhammad **محمد**": $13 + 8 + 13 + 4 = 38$, and 38 is the number of verses in Sura Muhammad (No. 47).

She then calculated the sequential value of "Rashad Khalifa **رشاد خليفة**": $20 + 21 + 1 + 4 + 24 + 12 + 10 + 17 + 5 = 114$: all suras. No sura has 114 verses. Her conclusion: this further proves that Rashad Khalifa is God's Messenger of the covenant who is prophesied in 3:81 to prove the Quran's 114 suras.

Soad also noted that the number of suras from Abraham (Sura 14) to Noah (71) is 57, 19×3 , with 57 suras outside.

Keikhusro Emami's Discovery

This old discovery of Mr. K. is relevant to this topic. He added the numbers of the 29 initialed suras: $2 + 3 + 7 + 10 + 11 + 12 + 13 + 14 + 15 + 19 + 20 + 26 + 27 + 28 + 29 + 30 + 31 + 32 + 36 + 38 + 40 + 41 + 42 + 43 + 44 + 45 + 46 + 50 + 68 = 822$. He then added the gematrical values of "Rashad" (505) and "Khalifa" (725). The sum he obtained was $822 + 505 + 725 = 2052$, that is 19×108 .

Lisa Spray's Discovery

A couple of years ago, Lisa gave the 28 letters of the Arabic alphabet sequential values. She then calculated the sum of sequential values of the 14 Quranic Initials that prefix suras 2, 3, 7, 10, 11, 12, 13, 14, 15, 19, 20, 26, 27, 28, 29, 30, 31, 32, 36, 38, 40, 41, 42, 43, 44, 45, 46, 50, and 68. The letters are **ا, هـ, ح, ط, ي, ك, ل, م, ن, س, ع, ق, ر**. The sequential values of these letters are 1, 5, 8, 9, 10, 11, 12, 13, 14, 15, 16, 18, 19, and 20, respectively, and the sum of these numbers is 171, 19×9 . Those who are familiar with the Quran's 19-based miracle appreciate the significance of these findings. This discovery validates the sequential numbering system of the Arabic alphabet.

SA'EED TALARI'S DISCOVERIES

Saeed was blessed with a huge number of profound discoveries, including what was reported in past issues as part of the "Miracle of Miracles." This time, I wish to report only one of his latest findings:

The parameters of the 3 messengers of Islam, written next to each other, give a multiple of 19. Write down the number of letters in "Ibrahim" (6), then the gematrical value of "Ibrahim" (258), then the number of letters in "Muhammad" (4), then the value of "Muhammad" (92), then the number of letters in "Rashad" (4), then the value of "Rashad" (505). The result is 62584924505, a multiple of 19.

Note: The sum of gematrical values of the 3 messengers, Abraham, Muhammad, & Rashad is $258 + 92 + 505 = 855 = 19 \times 45$.

Other Discoveries

I have a number of other significant discoveries with which God blessed Brothers Muhammad Azarshahy of San Francisco, Ahmad Yusuf of Nigeria, and Mohamoud Ali Abib of Tucson. I hope I find more space in future issues of the PERSPECTIVE to publish these discoveries. More profound findings were also made by Sister Ihsan Ramadan concerning "Mudathir & Muzammil."

AZHAR KHAN'S DISCOVERY VALIDATES THE ARABIC ALPHABET AND THE GEMATRICAL VALUES OF ARABIC LETTERS

The Arabic alphabet consists of 28 letters, and each letter has a universally established gematrical value. The 28 letters and their values are shown in the Table to the right. Brother Azhar Khan wrote down the 28 gematrical values, next to each other, to form one long number as shown below. He then asked his computer to divide this long number by 19, and sure enough, it is a multiple of 19. This proves that Almighty God has created and designed the Arabic language to conform with the Quran's 19-based mathematical code (Please see 30:22).

Arabic:	ا	ب	ج	د	هـ	و	ز	ح	ط	ي	ك	ل	م	ن
English:	A	B	G	D	H	W	Z	HH	TT	Y	K	L	M	N
Value:	1	2	3	4	5	6	7	8	9	10	20	30	40	50

Arabic:	س	ع	ف	ص	ق	ر	ش	ت	ث	خ	ذ	ظ	غ	
English:	S	'A	F	SS	Q	R	Sh	T	Th	Kh	Dh	DD	ZZ	Gh
Value:	60	70	80	90	100	200	300	400	500	600	700	800	9001000	

WHY 19?!

Many people still ask this preliminary question. When we tell them that 19 is the

gematrical value of "ONE" (WAHD = $6 + 1 + 8 + 4 = 19$), they question the validity of these values. Now we have the ultimate confirmation.

IHSAN RAMADAN DISCOVERS PROOF THAT THIS VERSE REFERS TO RASHAD

مُرَاذِيَت
أَرْسَلَ رَسُولَهُ بِالْهُدَىٰ وَرِيسِنَ الْحَقِّ لِيُظْهِرَهُ عَلَىٰ الدِّينِ
كُلِّهِمْ وَلَوْ كَرِهَ الْشَّكِرُوكُ

God has sent His messenger with the guidance and the true religion, and He will make it dominate all other religions, inspite of the idol worshipers.

Appendix 2 of the new translation, QURAN: THE FINAL TESTAMENT, presents overwhelming proof that Rashad Khalifa is God's Messenger of the Covenant. Additional evidence has been discovered since the printing of the translation. In this article, we witness powerful Quranic mathematical evidence that the verse shown above refers to Rashad Khalifa.

This verse occurs in the Quran twice: 9:33 and 61:9.

Evidence No. 1

If we write down the gematrical value of "Rashad" (505), followed by the value

of Khalifa" (725), followed by the sura and verse numbers where this verse is found (9:33, 61:9), we get:

505 725 9 33 61 9

This number is a multiple of 19.

Evidence No. 2

The number of verses from the first occurrence of this verse (9:33) to the last occurrence (61:9) is 3902. If we add this number to the sura and verse numbers where this statement occurs, then add the gematrical value of "Rashad Khalifa," we get $3902 + 9 + 33 + 61 + 9 + 1230 = 5244$, a multiple of 19 ($5244 = 19 \times 276$).

Evidence No. 3

The gematrical value of any statement pins down the identity of every single letter in that statement. The gematrical value of the two verses 9:33 and 61:9 is 7858. If we add this value to the number of letters that make up this value (120), plus the number of verses from 9:33 to 61:9 (3902), plus the gematrical value of "Rashad Khalifa" (1230), we get:

$$7858 + 120 + 3902 + 1230 = 13110 = 19 \times 690.$$

Allahu Akbar.

Sa'eed Talari's Great Discovery: Confirms the 5 Daily Prayers, Numbers of Bowing (Ruku'), Prostrations (Sujood), and Tashahhud

One of the common challenges that the Mohamedans consistently bring up against God is: "If the Quran is complete and detailed (as claimed in 6:19, 38, & 114), where are the details of the Contact Prayers (Salat)? These people ask this question because they are not aware that

the Quran informs us that the Contact Prayers came from Abraham (21:73 & 22:78). In the last few issues of the Perspective, a number of proofs have been published which confirm all 5 prayers – the sequence, number of units/prayer, what to say (Sura 1), and so on.

Now, Saeed Talari has discovered the mathematical confirmation of the minute details of the 5 Contact Prayers.

He wrote down the numbers of the prayers with their bowings, prostrations, and Tashahhuds. Here is what Saeed did:

11224124482344824336254482

This long number consists of the sura that we recite in the 5 prayers (1), followed by the number of the first prayer(1), then the number of "Keys" that we recite in this prayer (2), then the number of bowings (Ruku')(2), then the number of prostrations (4), then the number of Tashahhuds (in the sitting position)(1), then the number of the second prayer (2), then the number of "Keys" that we recite in the second prayer (4), then the number of bowings (Ruku') in this prayer (4), then the number of prostrations (8), then the number of Tashahhuds (2), then the number of the third prayer (3), and so on to the last prayer. This long number is a multiple of 19, and this confirms the minutest details of the prayers, even the numbers of Ruku', Sujud, & Tashahhud.

Old Trick by Satan's Agents: "You worship Rashad," they say!!!

The hypocrites say: "You idolize Rashad Khalifa by talking about him. You must ignore him!!!" Thus, they incur the lowest pit of Hell (4:145) by resorting to extremes: either idolize the Prophet Muhammad by mentioning his name in their Salat prayers and disobeying Quran, or attack God's Messenger Rashad Khalifa.

When God ordered the Prophet Muhammad to announce his messenger-ship, the people of Mecca attacked him. The Quran documents some of the insults they poured upon the Prophet:

Why was not this Quran revealed to a prominent man from one of the two communities (Mecca & Medina)? 43:31

When they saw you (O Muhammad), they mocked at you and said, "Is this the one chosen by God to be His messenger?" 25:41

In 17:76-77 God informs us that insulting and ridiculing the messengers at the hands of disbelievers is inevitable; that this is always the case with God's messengers.

The disbelievers plot and scheme to neutralize you, or kill you, or banish you. However, they plot and scheme, but so does God, and God is the best schemer. 8:30

Disbelievers & Hypocrites

God teaches us in 2:6-16 that the hypocrites are a lot worse than the disbelievers. The hypocrites are people who sit amongst us, pretend to be believers, and spread their poison in subtle and not-so-subtle ways. We look on them as if they are our brothers and sisters, but their hearts are full of doubt and poison. This is why God has reserved for them the lowest pit of Hell:

The hypocrites will be in the lowest pit of Hell. 4:145

On that day, you will see the believing men and women with their lights radiating ahead of them, and to their rights. What good news you receive today: gardens with flowing streams, wherein you abide forever. This is the greatest triumph. On that day, the hypocrite men and women will say to the believers: "Look towards us; let

us derive some lights from you. They will be told: "Go back and seek light elsewhere. A barrier will be established between them, with mercy on the inside, and retribution on the outside. The hypocrites will call: "Were we not with you?" The believers will answer: "Yes, but you deceived yourselves, waited too long, hesitated, and doubted. You were deceived by wishful thinking, until God's judgment came. You harbored deceitful thoughts about God. Consequently, no ransom can be accepted from you, or from the disbelievers. Your eternal abode is Hell, and a miserable destiny." 57:12-15

IMPORTANT CRITERION

The criterion in 9:24 is written down by God Almighty Himself. Simply stated: "If you do not love God's messenger more than your own family, you are not a believer." Rashad Khalifa is God's proven messenger, and this is God's law. Now it is up to you to examine your own feelings and find out whether you are going to the high Heaven or the lowest pit of Hell.
